

ComfortStand™ Anti-Fatigue Matting

ComfortStand™ anti-fatigue mats are designed to provide comfort and support for people who stand for extended periods.- Made from high-density polyurethane, the mat offers excellent cushioning, resilience, and durability, helping reduce pressure on feet, legs, and joints during long hours of standing.

Soft Cushioning · High Elasticity

The resilient polyurethane structure provides a soft yet supportive standing surface, helping reduce fatigue and improve comfort during prolonged standing work.

High-Density Polyurethane Construction

Made from durable polyurethane material with excellent rebound elasticity and tear resistance.
The cushioned structure supports the feet and helps relieve pressure caused by standing on hard floors for extended periods.

Technical Specification

Material	Polyurethane (PU)	
Dimensions	49 × 40 cm (19.29" × 15.75") 54 × 32 cm (21.26" × 12.60")	50 × 99 cm (19.69" × 38.98")
Total Height	25 mm (0.98")	18 mm (0.71")
Total Weight	850 ± 20 g/pc (1.87 lb/pc) 750 ± 20 g/pc (1.65 lb/pc)	2000 ± 20 g/pc (4.41 lb/pc)
Hardness	20 ± 5 (Shore A)	
Environmental Standard	GB 18586-2001: 0.1	

Suitable Applications

Ideal for workplaces where prolonged standing is required, such as:Food processing and preparation areas.Electronics and automotive assembly lines.Production and packing stations.Laboratories and workbenches.Schools and standing workstations

Cleaning & Maintenance

Routine Cleaning:Vacuum the surface regularly to remove dust and debris.
Periodic Cleaning:Rinse with water when needed and clean with a neutral (pH-7) detergent to maintain hygiene.

Available Color

Black | Yellow-Black | Brown

Custom Logo Options

Laser Engraving

Precise laser marking for clear and durable logo presentation.

Embossed Logo

Raised logo design integrated into the mat surface for a distinctive branding effect.
