

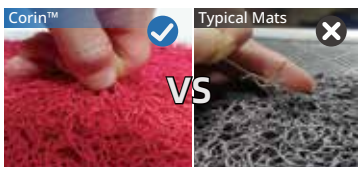
Corin™ Scraper Matting

Anti-Slip | Fire Resistance | UV Resistant | Warranty | Logo Printable

Featuring a dense filament structure made from high-strength virgin PVC, the Gerald™ entrance mat effectively captures dust, dirt, and debris while providing excellent water resistance and anti-soiling performance. The flexible yet durable material resists creasing, wear, and tearing, ensuring long-lasting performance even under heavy foot traffic.

Engineered Structural Design for Exceptional Durability

Product Structure Comparison



High-Strength Virgin PVC Loop Structure
Made from premium virgin PVC loops, the mat offers excellent toughness, elasticity, and resistance to tearing and heavy wear, ensuring long-term durability.

Fire Resistance Comparison

Self-Extinguishing Fire-Resistant Material
When exposed to flame, the PAALER Corin™ mat self-extinguishes once the ignition source is removed, while typical mats may continue to burn.

Durable PVC Loop Structure for Long-Term Performance

Constructed with high-density PVC loops and a durable anti-slip backing, the mat provides excellent resilience, pressure resistance, and wear resistance while maintaining long-lasting color stability and UV resistance.

Technical Specification

Yarn Material	PVC
Loop Construction	Fine Loop Surface with Sealed Backing
Backing Material	Durable TPU
Total Height	12 mm (0.47")
Total Weight	4700 g/m² (138.62 oz/yd²)
Dimensions (with Rubber Edge)	1.2 m × 15 m (3.94' × 49.21') Custom sizes available
Surface Dyeing Technique	Solution Dyeing
Color Fastness Grade	ISO 105-B02:2013 > 5
Fire Resistance	GB 8624-2012: B1
Slip Resistance	DIN 51130:2014 R11

Suitable Applications

Ideal for commercial entrances and high-traffic areas such as hotels, shopping malls, office buildings, airports, apartments, and public facilities.

Cleaning & Maintenance

Daily Cleaning:Use an upright vacuum cleaner with a brush attachment.
Deep Cleaning:Use a carpet extractor or pressure washer with a low-foam carpet cleaner; rinse thoroughly and remove excess moisture with a wet vacuum or allow the mat to air dry.
Cleaning frequency may be adjusted according to traffic levels.
