
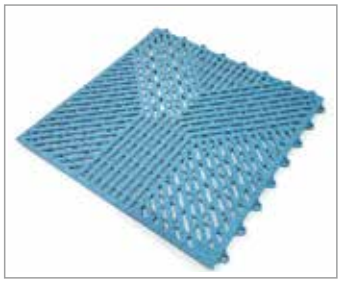
UltraBlock™ (Hotel Edition) Drainage & Anti-Slip Mats

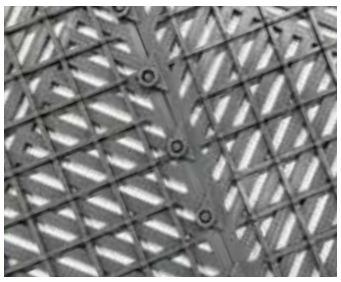
Modular anti-slip mat designed for wet areas such as bathrooms, swimming pools, and spa facilities.
The open drainage structure allows water to flow through quickly, while the flexible modular design enables easy installation and configuration for various layouts.

Y-Pattern Surface Design



The Y-shaped pattern with geometric alignment creates a rhythmic visual layout, adding design interest while maintaining excellent traction.

Open Drainage Construction



The hollow grid structure allows water to flow through quickly, helping prevent standing water and keeping the walking surface safer and drier.

Modular Interlocking System · Flexible Installation

Made from flexible PVC material, the tiles can be easily cut and configured to fit irregular layouts, making them suitable for poolside areas, spas, and wellness facilities.

Suitable Applications

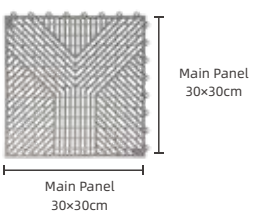
Ideal for wet areas in hospitality environments such as hotel restrooms, poolside walkways, spa facilities, locker rooms, and wellness areas where drainage and anti-slip performance are essential.

Cleaning & Maintenance

Daily Cleaning: Rinse with water or hose down to remove surface dirt.
Periodic Cleaning: Use a neutral (pH-7) cleaner and scrub if necessary to maintain hygiene.

Available Color

Dark Grey Light Grey Sea blue



Technical Specification

Product Model	UltraBlock™ (Hotel Edition)
Material	High-Quality Soft PVC
Structure	Hollow Drainage Design; Modular Interlocking System
Dimensions	30 × 30 cm/piece (11.81" × 11.81") Approx. 12 pcs/m^2
Total Height	9 mm (0.35")
Total Weight	290 g/pc (0.64 lb/pc) Approx. 3480 g/m^2 (0.71 lb/ft^2)
Environmental Standard	GB 18586-2012
Fire Resistance	GB 8624-2012: B1
Slip Resistance	DIN 51130:2014 R10
