

# SUSTAINABILITY-DATASHEET

## UZIN PE 260

### Multipurpose Primer

#### Indoor Air Quality (VOC)

EMICODE EC 1 PLUS - very low emission

Blue Angel according to RAL-UZ 113 - special environmental friendliness

Solvent-free

#### Life Cycle Assessment (LCA) and Environmental Product Declaration (EPD)

LCA according to ISO 14040/44

#### Impact indicators:

Functional Unit (FU): 1 kg product; cradle-to-gate (according to EN 15804: Modules A1-A3)

|                                                                         |                              |          |                                                     |                              |          |          |
|-------------------------------------------------------------------------|------------------------------|----------|-----------------------------------------------------|------------------------------|----------|----------|
| Global warming potential (GWP 100)                                      | [kg CO <sub>2</sub> -Eq./kg] | 0,58     | Total use of non-renewable primary energy resources | [MJ/kg]                      | 25,58    |          |
| Depletion potential of the stratospheric ozone layer (ODP)              | [kg R11-Eq./kg]              | 1,96E-07 | Total use of renewable primary energy resources     | [MJ/kg]                      | 0,75     |          |
| Acidification potential of land and water (AP)                          | [kg SO <sub>2</sub> -Eq./kg] | 2,22E-03 | Waste categories:                                   |                              |          |          |
| Eutrophication potential (EP)                                           | [kg PO <sub>4</sub> -Eq./kg] | 4,98E-03 |                                                     | Hazardous waste disposed     | [kg/kg]  | 4,51E-03 |
| Formation potential of tropospheric ozone photochemical oxidants (POCP) | [kg Ethen-Eq./kg]            | 7,26E-04 |                                                     | Non-hazardous waste disposed | [kg/kg]  | 2,37E-01 |
| Abiotic depletion potential for non-fossil resources (ADPe)             | [kg Sb-Eq./kg]               | 2,47E-07 | Radioactive waste disposed                          | [kg/kg]                      | 6,92E-05 |          |
| Abiotic depletion potential for fossil resources (ADPf)                 | [MJ/kg]                      | 25,30    | Use of net fresh water                              | [m <sup>3</sup> /kg]         | 0,28     |          |

#### Green Building / Certification of Buildings

##### DGNB – German Sustainable Building Council

##### Version 2015. Criteria: ENV 1.2 Risks for local environment (Risiken für die lokale Umwelt)

**Product group according to matrix of criteria (Row 8):** primer, sealants, levelling compounds and adhesives underneath wall and flooring coverings (for example tiles, textile floorcoverings, wood flooring, resilient flooring – except murals)

| Quality level (QS) | Requirements                                             | Compliant |
|--------------------|----------------------------------------------------------|-----------|
| QS 1               | GISCODE D1, RU 0,5, RU1, RE1 or RS10                     | Yes       |
| QS 2               | EMICODE EC 1, EC1 Plus, EC1-R, EC1- R Plus or RAL-UZ 113 | Yes       |
| QS 3               | EMICODE EC 1, EC1 Plus, EC1-R, EC1- R Plus or RAL-UZ 113 | Yes       |
| QS 4               | EMICODE EC 1, EC1 Plus, EC1-R, EC1- R Plus or RAL-UZ 113 | Yes       |

|                                                                                                                                                                                                                                                                                         |                                                                                  |                  |
